# Hunter's Room

Hunter was born with Multiple Disabilities due to complications at birth. He was adopted by Donnie & Vicki Shellnut shortly after his birth. Hunter has many challenges including:

- Spastic quadriplegic Cerebral Palsy
- Multiple forms of Epilepsy

As Hunter grows he will always have a need for assistive devices to provide a barrier free home.

His family with the help of Faith Works is trying to raise enough funds to build a modest addition to their home to provide for Hunter's Needs.
